**Number of Fellowship  
Training Positions per Year**      1

**Applicant Qualifications /  
Prerequisites**

**Program Description**

Minimum one year position.  
Research opportunities exist through the echocardiography group, and its association with the Victoria Heart Institute.  
Currently we have a three Level 3 trained echocardiographers on staff, and we are actively recruited for a fourth. There are nine adult sonographers currently working in the lab, and we have six machines (four Sonos 5500 machines, one Sonos 7500, and one IE/33).  
The current annual volume through our lab is between ten and eleven thousand adult echocardiographic studies, with an additional 4-500 stress echocardiographic studies and over 400 transesophageal studies.
